CALL FOR BIDS

« Soutien à la nutrition infantile dans la province du Sud Hwanghae »

SOYMILK and BREAD PROCESSING MACHINE

ADDRESS OF RECEPTION OF THE OFFERS

EUPS- Unit 1
Munsundong, Diplomatic Compound, Flat 4-15
Pyongyang DPRK
Email: kor.agropm@pu-ami.org
Phone: +850 2 3817 967
Fax: 00 86 10 65 44 23 65

DEADLINE FOR RECEPTION

February first (Monday), 2016 at 6:00 PM (Pyongyang time)

I. SPECIFICATION PROCEDURE

Tenderers are kindly asked to respect the terms and forms described here. Offers that do not respect those terms and form will be rejected.

1. LANGUAGE

The offers must be written in English including annexes and other supporting documentation.

2. CURRENCY

All prices must be expressed and converted into **Euros, including all potential subsequent taxes (e.g. VAT).**

3. QUALITY STANDARD

All proposed items must respect **European Community Standards.**

4. OFFER FORM

The tender will be presented in the following manner:

- An exterior envelope with the address of EUPS-Unit 1. This envelope must contains 2 envelopes (numbered 1 and 2 by the tenderer):
 - Envelope numbered 1 must contain the following administrative information :
 - Tenderer references (address, type of company, main activities...);
 - Indication of previous delivery in DPR Korea ;
 - Bank information (name, address...), title and number of the bank account of the tenderer ;
 - The present document signed and stamped by the tenderer on each page of this document.
 - Envelope numbered 2 must contain :
 - Annex 1 (Technical Specifications) filled, signed and stamped by Supplier
 - Tech guide/manual for soya milk processing machine and bakery big machine,
 - Samples, pictures and datasheet as requested in Annex 2 (bill of quantity)
- **Offers must be presented** as follows :
 - Lot A_ soybean/soymilk processing system (VitaGoat, SoyCow or similar) / electric soybean processing machines
 - Lot B_ medium scale : electric soybean processing machine type 1
 - Lot C_ large scale : electric soybean processing machine type 2
 - Lot D_ Equipment's / tools for processing units
 - Lot E_ bread processing machines
 - Lot F_ power supply
 - Lot G_ hygiene and cleaning
 - Lot H_ churns and distributions kits
- **Each equipment item's line** must be described clearly in terms of :
 - Name
 - Name of manufacturer
 - Country of production
 - Quantity
 - Unit price
 - Total price

- Picture
 - Technical Specifications
 - Sample if required
-
- Items must be detailed with their specifications if required in the bill of quantity.
 - **Transport cost** must be **included** in the total price **per lot**.

II. TENDER CONDITIONS

EUPS unit 1 is a European Structure dedicated to the setting up of development projects. The project of the EUPS Unit 1 referred to is funded by **AAP**.

The suppliers are obliged to respect all conditions mentioned and will make the offer lot by lot. These conditions constitute an integral part of the contract signed by selected suppliers.

1. RESPONSE:

Deadline for reception of offers is Thursday, February 1st (Monday), 2016, 06:00 PM (Pyongyang time).

All the tenders received will be opened on Thursday, February 3rd (Wednesday), 2016 2:00 PM (Pyongyang time).

2. DELIVERY:

The supplier is obliged to deliver the goods ordered by EUPS – UNIT 1 to the following centres and farms:

- 1) Daesong farm, Pioksong County, South Hwanghae Province, DPRK
- 2) Tappyong farm, Samchon County, South Hwanghae Province, DPRK
- 3) Sinkwang farm, Haeju District, South Hwanghae Province, DPRK
- 4) Sinwon Distribution Center, Sinwon city, South Hwanghae Province, DPRK
- 5) Haeju Food Processing Factory, Haeju city, South Hwanghae Province, DPRK

The production objectives in terms of capacity are as follow

- 1) Small scale soya milk production units (Daesong, Tappyong and Sinkwang farm)
Daily production objectives: between 60 to 120 Litter /day (to be produced in 6 hours approximately)
- 2) Medium scale soya milk production units (Sinwon Distribution Center, Sinwon city)
Daily production objectives: 300 L / day (to be produced in 6 hours maximum)
- 3) Big scale soya milk production units (Haeju Food Processing Factory)
Daily soya milk production objectives: 3000L / day (to be produced in 6 hours maximum)
- 4) Big scale bakery unit
Daily bread production objectives:

The goods will be delivered at once, in terms defined by EUPS-unit 1, as follow:

Lot	Item	LOCATION				
		1	2	3	4	5
A	Small scale Soybean/soymilk processing system (SoyCow or similar) /	X	X	X		

B	Medium scale : electric soybean processing machine type 1				X	
C	Large scale : electric soybean processing machine type 2					X
D	Equipment's / tools for processing units	X	X	X	X	X
E	bread processing machine					X
F	power supply	X	X	X	X	X
G	hygiene and cleaning	X	X	X	X	X
H	Churns and distribution kit	X	X	X	X	X

The supplier is only responsible for administrative and customs proceedings concerning the delivery of goods. All costs of the above mentioned procedures are at the expense of supplier.

The supplier assumes his obligations towards the competent authorities, which mean fiscal obligations, taxes and insurance, and releases by this EUPS – UNIT 1 of these responsibilities.

3. **GUARANTY:**

The supplier provides EUPS - UNIT1 a guaranty period for delivered products. This period will be **clearly mentioned in the offer**.

If the supplier fails to deliver the goods to the destination, EUPS-Unit 1 will charge the supplier with any resulting additional expenses.

4. **PRICES:**

The fixed price includes the delivery to the respective centres and farms. All related expenses are at the supplier's responsibility (transport, loading and unloading, insurances, taxes and customs duties).

It is clearly stated that EUPS – Unit 1 is not obliged to select the cheapest tender.

5. **PACKAGING:**

The packaging should protect materials from shocks and from any liquids, humidity and extreme heat or temperature differences which may occur during truck loading, transportation, storage and unloading.

Each good will be delivered in a **separate bag/container** with identified number of items in order to allow the delivery tchecking.

6. **COMPARISON OF TENDERS**

After verification of the respect of administrative requirement, a technical and financial evaluation will be publically held.

The selection of the winning bidder, for each lot, will be made on the basis of the following criteria:

- a. Compliance with the technical specification (40% of the technical evaluation)
- b. Requested samples/pictures (10% of the technical evaluation)
- c. Total price of the tender (30% of the technical evaluation)
- d. Delivery time and guaranty (10% of the technical evaluation)
- e. Experience with supply of similar items and with international organisations (from 0 to 5% bonus)

EUPS - UNIT 1 reserves itself the right to modify the quantity for any item after selection of the winning tender.

7. PAYMENT:

EUPS – UNIT 1 will transfer the total payment to the bank address given by supplier, one month after validation of the reception.

8. SPECIAL CONDITIONS:

EUPS - UNIT1 reserves itself the right to terminate or modify this tender in case of major (i.e. war, conflict, natural catastrophes, and conditions of insufficient security).

9. INSURANCE:

The selected supplier must take out all the needed insurance and pay for all the legal taxes to guarantee a social and civil protection to all the staff involved in the completion of the contract, and then mitigate all the bad effects of decease, injury, work accident and damage that may occur.

III. GENERALS CONDITIONS OF ELIGIBILITY AND EXCLUSION

1. ORIGIN :

The supplies tendered must originate from a Member State of the European Union, beneficiary country or eligible country to EU regulation. A certificate of origin, for all the lots, will be asked at the winning bidder. **The bidders must respect DPRK restrictions concerning importation of some specific goods.**

Facility to purchase proposed equipment spare parts according to the DPRK context will be taken in account for supplier selection. This rule will particularly be true regarding the electrical material.

2. FRAUD, CORRUPTION :

EUPS - UNIT1 may terminate the contract in any of the following cases:

- The Contractor is bankrupt or being wound up, is having its affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations.
- The Contractor has been guilty of grave professional misconduct proven by any means which EUPS - UNIT1 can justify.
- The Contractor has been the subject of a judgment for fraud, corruption, involvement in a criminal organization or any other illegal activity detrimental to the Communities' financial interests.

3. Children work

EUPS – Unit 1, as expressed in its Charter and internal regulations, fully agrees with the convention on children rights and would like to draw the attention of its potential suppliers is stipulating that one child must be protected from all work that could complicate his school attendance, or have bad effects on his health, his blooming, as well as his social development.

It is clearly stated to the selected supplier that children under 18 are not allowed to work for the implementation of the present contract. The access to all the sites used for the implementation of this contract is strictly forbidden to the children under 18.

2 / we understand that:

- Offers are constituted of: this formulary dutifully filled and products samples if requested. Two sealed envelopes must be submitted: one envelope with technical specifications and quantities, one with prices. Only the complete offer will be admissible.
- Tenders will be submitted, in a sealed envelope, no later than February 1st (Monday), 2016, 06:00 PM (Pyongyang time) to the following address:

Delphine LEFEVRE / EUPS- Unit 1
Munsudong, Diplomatic Compound, Flat 4-15
Pyongyang DPRK
Email: kor.agropm@pu-ami.org
Phone: +850 2 3817 967
Fax: 00 86 10 65 44 23 65

- Tenders received after the closing date will be rejected.

3/ We undertake, if our Tender is accepted, to gather and send the whole furniture ordered **within 4 weeks** of receipt the order.

4/ We allow EUPS-Unit 1 to modify the quantities of materials requested and to select only some of the items described in the products description. Our prices will be adjusted proportionally to quantities.

5/ We agree to keep prices by this Tender for a period of **3 months for all lots**

6/ We understand that you are not bound to accept the lowest or any tender you may receive.

7 / We understand that the terms of payment will be according EUPS-Unit1 regulation. **100% will be paid after the final approval of all materials and check of its conformity with the quotation request specifications.**

If not, EUPS-Unit 1 will estimate the global amount of materials non-conform to the quotation specifications (according to prices fixed in the quotation) and deduct this amount from the final payment. Payments will be order by bank transfer and banking fees will be charged to the selected company.

ANNEX 1 – TECHNICAL SPECIFICATIONS
PYO/15/KOR15045/PR/02

LOT N°A

NAME OF THE LOT: Small scale Soybean/soymilk processing system (VitaGoat, SoyCow or similar)

n°	Item	Technical specifications
1.a	Soya milk small scale processing unit (Soycow or similar)	 <p>Boiler + chimney+ adequate spare parts (wood combustible)</p>
1.b		 <p>Electric grinder, 220V, 50-60hz, food grade stainless steel,</p>
1.c		 <p>Pressure cooker /pasteurizer Stainless steel core with 10L capacity</p>
1.d		 <p>Filter press, food grade stainless steel metal</p>
1.e		 <p>Electric water pump to be fix with the boiler Yield 20L/min, (around 500W) 220 V With pression flexible pipe (1m)</p>

1.f			electric boiler water connexion, steam connexion to cooker, blow down connexion and valves, 220V, Delivered with spare parts
1.g	Soycow or similar complete attachment kit		Chimney pipe section (app 4ft/1.2m each), one elbow, steam hose 1.5m Adequate pressure components include socket, safety relief valves and pressure gauges and valve ¼ turn, etc.), all machinery from 1.a to 1.f must fit together. All other needed attachment to procure complete process system.
1.h	Soycow or similar spare part kit		Spare part kit included <ul style="list-style-type: none"> - A set of filter, - pressure cooker nanometre, - 2 set grinder stones,

LOT N°B

NAME OF THE LOT: medium scale : electric soybean processing machine type 1

2.a	Electric soybean processing machine type 1		Electric Soybean milk machine with included grinder, pasteurization system and water filter Capacity : 60 L/20 minutes or more Power supply: 220V/380V
2.b	Attachment kit for Electric soybean processing machine type 1		Including electric alimentation (cable and plug, 3 adequate surge protection device SPD), Water alimentation, (Valve ¼ turn + fitting, water tap, water pipe minimum 3m, , manual in Korean language
2.c	Spare part kit for Electric soybean processing machine type 1		Spare part kit included <ul style="list-style-type: none"> - water filter replacement, - 2 set of grinder stones - second nanometre in prevision of replacement) - metallic and fibre filters for replacement

LOT N°C

NAME OF THE LOT: big scale : Soybean/soymilk processing system (VitaGoat, SoyCow or similar) / electric soybean processing machine type 2

3.a	Electric soybean processing machine type 2		Electric Soybean milk machine with included grinder, pasteurization system and water filter system Capacity : 400 to 700 L/h
-----	--	--	--

		Power supply: 220V/380V
3.b	Attachment kit for Electric soybean processing machine type 2	Including electric alimentation (cable and plug, 3 adequate surge protection device SPD), Water alimentation, (Valve ¼ turn + fitting, water tap, water pipe minimum 3m, water filter replacement, in prevision of replacement) Spare part metallic and fibre filters, manual in Korean language
3.c	Spare part kit for Electric soybean processing machine type 2	Spare part kit included <ul style="list-style-type: none"> - grinder filter for replacement, - 2 set of grinder stones - second nanometre, - water filter system - metallic and fibre filters for replacement

LOT N°D

NAME OF THE LOT: Equipment's / tools for processing units

1	Stainless steel table	 top in washable material from 1 or 1,5 long 0,70 to 0.75 high
2	Kart	 Stainless steel cart, plain and flat to carry plastic tray of flour bags size: 900-1030x630x100mm
3	Plastic bucket	 handle and spouring spout durable and washable plastic or steel material Provide picture
4	Large plastic basin	 10 L durable and washable plastic or steel material

5	Large colander		30 cm diameter, stainless steel material
6	Large cooking/mixing spoon		Stainless steel metal (40cm)
7	Large cooking/mixing ladle		Stainless steel metal (40cm)
8	Large perforated spoon		Stainless steel metal (40cm)

LOT N°E
NAME OF THE LOT: Machinery for bread

n°	Item	Technical specifications
1	Bread oven (9 strays)	 timer end Electrical brain oven in stainless steel 25 kW (+/- 15%) / 380 V 9 trays, minimum size for trays 400x600mm, 3 layers or decks with: temperature controller <ul style="list-style-type: none"> - Timer - Light button - Power switch - Glass window - Button for lock system - Sonor warming alarm for
1.1	spare part for bread oven	Cables, fuses, temperature controller probe, light, 3 adequate surge protection device SPD , other needed spare parts

2	trolley		Stainless steel size 400x600mm 4 wheels carry up 15 to 20 trays
3	baking tray		Stainless metal, 400x600mm suitable with above oven, leaving and trolley equipment
4	Mould tray (Teflon)		For 50 to 70g small bread, tray size 400x600mm, between 24 to 50 units per tray. Propose different models, shapes and capacity (Teflon) suitable with above oven, leaving and trolley equipment
5	Electrical leaving chamber		Capacity of 25 strays, For bread incubation, in stainless steel, Power 2kw/220 V, - Temperature controller - Timer - Light button - Power switch - Glass window manual in Korean language
5.1	spare part lot leaving chamber		Cables and appropriate plugs, fuses, temperature controller probe, 3 adequate surge protection device SPD) Other needed spare parts,
6	bread mixer 30L		to mix bread dough electrical 220V max 3kw 2 rotation speed bowl lift design 30 L bowl included Dough spiral hook, mixing ball, beater bowl in stainless steel manual in Korean language
6.1	spare part lot bread mixer 30L		Cables, fuses, adjustment button or lever, other often replace spare part,
7.1	bread mixer 60L		To mix bread dough Electrical 220V max 6kw 2 rotation speed bowl lift design 60 L bowl included Dough spiral hook, mixing ball, beater bowl in stainless steel
7.1	spare part lot bread mixer 60L		cables, fuses, adjustment button or lever, other often replace spare part,

8	Dough sheeter	Power: around 0.5kW, Roll width: 520 mm Thickness adjustment: 1 mm – 40 mm Provide manual and yield (capacity) information
8.1	spare part lot for dough sheeter	Cables, fuses, adjustment button or lever, other often replace spare part,
9	Semi-automatic dough divider and rounder	Power: 0.5 to 1kw, Weight range for doughball: 50 to 100g Capacity: one time 30 doughball, Provide manual and yield (capacity) information
9.1	spare part lot for dough divider and rounder	Cables, fuses, adjustment button or lever, other often replace spare part,
10	kart	 Stainless steel kart, plain and flat to carry plastic tray of flour bags size: 900-1030x630x100mm
11	analogue balance (gr)	 stainless steelydable and washable material, Analogue balance (working without electricity power) scope 0 to 6 kg maximum, for small weith
12	Kg balance	 Stainless steel material, scope from 6 kg to 30 kg, 0,5 g à 2 g precision, tray 300x240 mm
13	Stainless steel table 1,8*0,8	 2 layers: top layer with plain sheer above layer with perforated sheet as drain board or splashboard pictures required
14	mould (Teflon)	  (Teflon)

15	cutting board	 material: plastic size: 30X40cm
16	Apron	Plastic or cotton material, for cooking Provide picture and/or sample
17	dough blade	 stainless steel
18	food plastic tray	 For bread transportation in plastic (no holes), with handles size: 620*415*120mm Loading Capacity: 20 kgs Stacking Load: 120 kgs Provide picture and sample
19	rolling pin	 wooden roll in one peace to roll out pastry
20	Stainless steel bowl small	 stainless steel metal, 20cm diameter
21	Stainless steel bow big	stainless steel metal 40cm diameter
22	plastic container big	 Large storage container with cover, From 30 to 60L
23	plastic container small	 Storage container with cover, small size from 1 to 3L
24	Silicon gloves	 For hot temperature protection

LOT N°F
NAME OF THE LOT: Power supply

n°	Item	Technical specifications
1	Control box	control box, metal material, closing with a kee 20x30 cm
2	Control box	control box, metal material, closing with a kee 30x50 cm
2	Voltage Transformer 20kw	3 phases transformer, 20 kW, to transform 3300V electricity into 220V and 380V Technical specifications + pictures required List of spare parts
3	Voltage Transformer 70kw	3 phases transformer, capacity 70 kw, to transform 3300V electricity into 220 and 380V Technical specifications + pictures required List of spare parts
4	Essence electric 2kW generator	2kW, output 220V, with diesel, delivered with adequate electrical wires Technical specifications + pictures required List of spare parts
5	Diesel electric 25kw generator	25 kW, output 380V triphase , with diesel, delivered with adequate electrical wires Technical specifications + pictures required
6	Diesel electric 70kw generator	70 kW, output 380V triphase, with diesel, delivered with adequate electrical wires, variable speed: can adapt power output to the consumption Technical specifications + pictures required List of spare parts
7	Diesel electric 80kw generator	80 kW, output 380V triphase, with diesel, delivered with adequate electrical wires, variable speed: can adapt power output to the consumption Technical specifications + pictures required List of spare parts
8	Electrical stabilizer 5kW	3kW, 50hz -60Hz Output voltage: 220 and 380V
9	Electrical stabilizer 10kW	10kW, Output voltage: 220V and 380V
10	Electrical stabilizer 20kW	20kW, Output voltage: 220V and 380V
11	Electrical stabilizer 30kW	30kW, Output voltage: 220V and 380V
12	Electrical stabilizer 70kw	70kw output voltage: 220V and 380V
13	Electrical stabilizer 80 kw	80kw output voltage: 220V and 380V
14	multi socket plug adaptor 220v	Standard, 4 or 8 plug, working with above mentioned equipment 220 ~ 250V, max. power 800W. Technical specifications + pictures required
15	Multisocket plug adaptor 380v	Standard, working with above mentioned equipment 3 Output at least: 380V each. Technical specifications + pictures required

16	Solar kit /photovoltaic 220v	for light and grinder (lot A item 2) delivered with adequate electrical wires battery output 220V Technical specifications + pictures required List of spare parts
17	Solar kit /photovoltaic 110v	for light and grinder (lot A item 2) delivered with adequate electrical wires battery output 110V Technical specifications + pictures required List of spare parts

LOT N°G
NAME OF THE LOT: hygiene and cleaning

n°	Item	Technical specifications
1	pair of Rubbers gloves (long)	 <p>gloves for dishwashing up or food manipulation, waterproof, in rubber, neoprene, latex or other, picture required Technical specifications pictures required + sample required</p>
2	mosquito trap lamp	 <p>Rated Voltage: 110V/220V</p>
3	plastic bin	 <p>washable material</p>
4	ashtray	 <p>washable material stainless metal</p>

5	Hygiene clothes kit (inclut hair net)		<p>To protect head and body while processing food, white color, plastic or cotton fabric. Provide sample</p>
6	Bleach water production kit	to produce bleach water, capacity of 10l, 220V	
7	Rubber pipe (7 m)		
8	brush for dish washing up		
9	curving bruch for bottles washing up		

10	Storage closet	
11	stool	 <p>1 durable plastic and washable stool</p>
12	spray bottle	 <p>1 L size Plastic material Good quality (long life duration)</p>
13	plastic boots	<p>Color white Flexible PVC, anti-slipping sole, sample required Technical specifications + pictures required + sample required</p>
14	plastic clog	 <p>Plastic, semi-flexible, hygiene shoes, size between 35 and 37 Technical specifications + pictures required + sample required See annex for details</p>

15	apron	
16	mop+PVC bucket	 <p data-bbox="596 949 767 981">with the stick</p>
17	large mop+bucket	
18	doormat	

19	brush for ground	with it stick 
20	sponges	
21	Electric ventilator 1	Electric ventilator for wall 3.2 m ² /h, around 25W delivered with adequate spare part included the external grill
22	Electric ventilator 2	Electric ventilator for wall 7.5 m ² /h, around 30W delivered with adequate spare part included the external grill

LOT N°H
NAME OF THE LOT: Churns and distribution tools

n°	Item	Technical specifications
1	Churn 5L	 stainless steel Sealing lid with silicone seal Size : 5L Provide sample
2	Churn 10 L	stainless steel Sealing lid with silicone seal Size :10L
3	Churn 15 L	stainless steel Sealing lid with silicone seal Size :15L
4	Churn 20 L	stainless steel Sealing lid with silicone seal Size :20L

5	Milk churns plastic 5L		<p>waterproof plastic churns high density polyethylene material food use compliant Sealing lid with silicone seal Size : 5L</p> <p>Provide sample</p>
6	Milk churns plastic 10L		<p>waterproof plastic churns high density polyethylene material food use compliant Sealing lid with silicone seal Size :10L</p>
7	Milk churns plastic 15L		<p>waterproof plastic churns high density polyethylene material food use compliant Sealing lid with silicone seal Size :15L</p>
8	Milk churns plastic 20 L		<p>waterproof plastic churns high density polyethylene material food use compliant Sealing lid with silicone seal Size :20L Provide sample</p>
9	Drinking cup with handle		<p>Durable/ resistant plastic material (children use) high density plastic With handle Washable Provide sample</p>
10	Pitcher (carafe)		<p>Durable and resistant high density plastic material or stainless steel with handle Provide sample</p>
